WORK EXPERIENCE:

Microsoft Corporation - Modern Internet Explorer 11 & Project Spartan

July 2013 - Present

USER EXEPERIENCE PROGRAM MANAGER - Redmond, Washington

- Led a team of developers and testers in planning, writing requirements, and shipping Reading View for Windows Phone 8.1
- Improved our team's understanding of user engagement of our reading feature. Initiated project and wrote spec to collect user engagement data
- Based on user feedback, storyboard and wireframed new interactions for Reading View & Cortana text lookup
- Brainstormed and developed HTML/CSS/JS prototype of an improved reading layout to handle dynamic content
- Partnered with Cortana/Bing teams to ensure design consistency across Spartan and Cortana features

KDD 2012 Matching System (sold)

Freelance, March 2012 - August 2012

PRODUCT LEAD & RECOMMENDATION ENGINE DEVELOPER - Ann Arbor, MI

- Led a small team to acquire project, and develop a web application that matches researchers to students for the Knowledge Discovery Data Mining conference attended by ~1000 participants. Received positive feedback from attendees
- Gathered user requirements, interviewed attendees to understand user problems, designed sketches and wireframes
- Developed recommendation engine with (py)Lucene for matching engine

DATA SCIENTIST INTERN – New York

Visual Revenue – B2B Technology Startup that provides recommendations to news media e.g. Forbes

Summer 2012

Researched and developed recommendation model to predict Facebook Likes to increase user engagement

Microsoft Corporation - Account Services Group Search

SEARCH ANALYST/ACCOUNT MANAGER - Redmond, Washington

August 2006 – June 2010

- Grew \$2+ million account portfolio 20% over revenue quota through analyzing and optimizing paid search, contextual, and mobile data for key advertisers and agencies such as Cars.com, Lenovo, T-Mobile, and University of Phoenix
- Gained buy-in from CMOs through competitive reports leading to a 25% increase in revenue of a \$4+ million portfolio
- Developed and designed Excel tool that charted graphs for 40 analysts; decreased process time from 5 hrs to 20 mins
- Ran focus groups and contextual inquiry studies to improve the adCenter Desktop tool with engineering

TOOLS & SKILLS:
